# ARCTIQ + ⚙ CYERA

# Data Governance & Security Reinvented

## Govern & Secure Your Data. Accelerate Compliance.

Arctiq and Cyera deliver next-generation data governance and security solutions, powered by automation, observability, and deep data context.
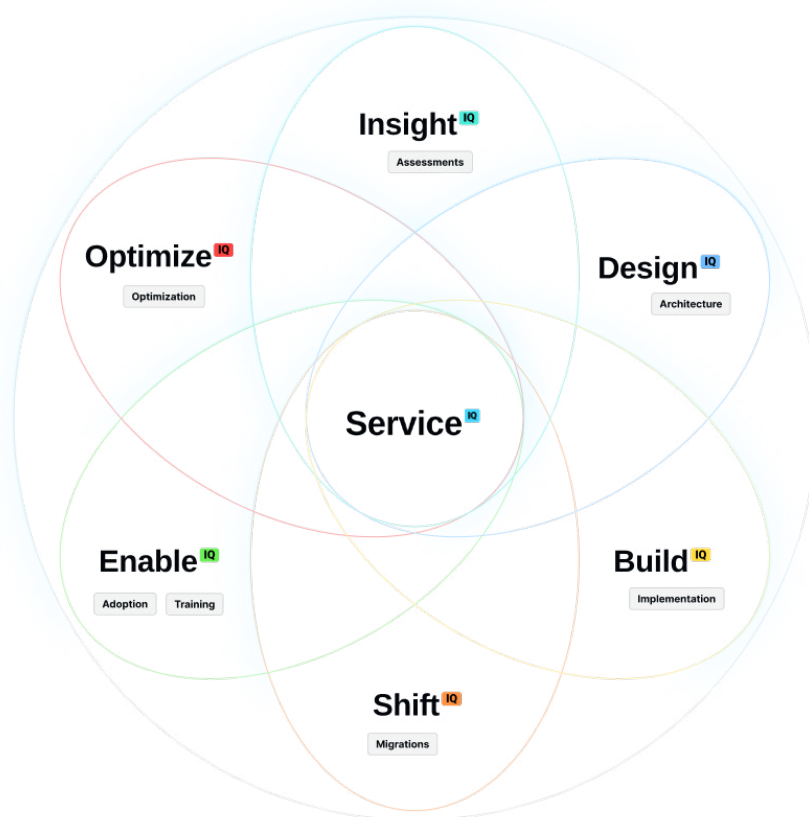

## Why Arctiq + Cyera

### Unified Expertise.
### Proven Outcomes.

Arctiq's ServiceIQ methodology meets Cyera's AI-powered data security platform to deliver a full lifecycle approach to data governance.

**Together, we help organizations:**

- Discover and classify sensitive data across hybrid environments.
- Automate risk remediation and compliance workflows.
- Enable continuous monitoring and policy enforcement.

# Arctiq's Approach

Arctiq ServiceIQ and Cyera together deliver end-to-end data security

## Insight IQ

- Enterprise Data Risk Posture Assessment
- Findings + Reccomendations

## Build IQ

- Data governance and security control frameworks
- Policy-as-code, alerting profiles, and compliance dashboards

## Optimize

- Targeted actions and continuous improvement.
- Offered as both a fixed or managed service offering.

# Use Cases

| | |
|---|---|
| **AI Readiness** | Ensure compliance and reduce risk by leveraging Cyera to identify and classify data in large language model (LLM) training and AI adoption. |
| **Mergers and Aquisitions** | Automatically discover, classify, and prioritize data sets from different entities. Reduce risk and streamline integration by providing visibility into sensitive data, supporting regulatory compliance. |
| **Data Governance and Security Program** | Automatically discover, classify, and monitor sensitive data across cloud environments, ensuring compliance with regulatory requirements. Enforces security policies and mitigates risks by providing real-time visibility and actionable insights into data exposure and access controls. |
