CLOUD DEVELOPER

As a Google Premier Services Partner, Arctiq stands out with specialized and certified professionals, providing unparalleled service across North America, including access to DAF/PSF/PSO.

- **Specialized Expertise:** Our team boasts deep expertise in architecture, advisory, enablement, integration, and project delivery, ensuring comprehensive service from start to finish.

- **Training and Enablement:** We provide extensive training and enablement programs to help organizations upskill their teams and fully leverage Google Cloud technologies.

- **Accelerated Deployment:** Through experience and specialized tools, we accelerate the deployment of Google Cloud solutions, ensuring faster time-to-value.

- **Technical Delivery and Adoption:** We focus on driving technical delivery and adoption, providing genuine value through DevOps for hybrid/multi-cloud deployments, application and CI/CD pipelines, integrations, and cross-ecosystem tools.

- **Successful Implementations:** With extensive experience in deploying, troubleshooting, and configuring GCP tools and the Anthos Platform for large enterprises, we've successfully driven customer adoption of Google Cloud Platform (GCP) Foundations, Anthos, Google Kubernetes Engine (GKE) Enterprise, and Apigee.

Acceleration Blueprints to Drive Anthos/GKE Adoption

Arctiq developed Anthos Acceleration Blueprints to expedite enterprise adoption and skill maturity with repeatable patterns and MVP methodology.

Anthos Production	Migrate and harden key client apps, processes, and tools into their production environment end-to-end.	Pattern Workshops	One-day sessions and technical deep dives to identify and develop patterns for Anthos.
Anthos Day 2 Ops	Harden and secure applications, onboard users and apps, mature Anthos workloads, and integrate additional features.	Accelerator Lab	Prepare new workloads, apps, and teams. Develop an Anthos app roadmap.
Anthos Onboard	Prove viability, architect and install Anthos, build key integrations, and onboard apps and users for successful deployment.	Technical Consulting	Plan and execute large-scale app migrations to production. Provide full application capability in production.
Increasing Anthos environment maturity		**Repeatable pattern growth**

Enhance Your Google Cloud Experience with Arctiq Solutions

Discover how we can elevate your capabilities with our diverse range of services and Acceleration Programs.

- Flexible Retainer Model
- Workshops to Engage with Client Project Teams
- Discovery and Scope Validation
- Accelerated Developer Onboarding
- Architecture Review and Validation

- Design, Implementation, and Adoption
- Solution Roadmap via MVP Methodology
- Focused on Application Onboarding
- Streamline Developer Experience to GCP/GKE

Technology	Industry	Outcomes
• GCP Foundations • Anthos Config Management • Service Mesh & Configuration • Management, Policy Controller • Anthos POC, Day 2 and Day 2 + ArctiqLabs • API Management • Security: Admission Control, Container Runtime Security, RBAC	• Cloud Natives • Enterprise & Commercial • Gaming & Hospitality • Healthcare & Life Sciences • Energy • Transportation • Telecommunications • Financial Services • Insurance • Leisure Travel & Tourism • Retail • Government & Education • Capital Markets	• Validated and deployed on-premises solutions • Created and implemented comprehensive plans • Enabled detailed logging and monitoring • Accelerated adoption of new technologies • Enhanced application resilience with advanced deployment strategies • Developed best practices for enterprise-wide adoption • Implemented efficient rollout models • Established deployment patterns for multi-site environments • Conducted intensive training bootcamps • Delivered comprehensive API management

The Arctiq Advantage

Agile Delivery

Our flexible team delivery approach ensures project work is delivered by consultants experienced in real-world scenarios and can be rapidly augmented with additional team members to meet aggressive timelines when needed.

Certified Experts

Our team includes accredited technical and sales professionals, featuring certified and specialized pre-sales and delivery consultants.

Community Engagement

We love to share insights through technical blogs and participate actively in the tech community (regular talks at CNCF events and industry and community conferences).

Boutique

Our focus is on core set of technologies, enabling clients to be self-sufficient which accelerates software/tooling/platform adoption, driving long-term success.

Bilingual Advantage

We have physical offices across US and Canada including Quebec, with English and French-speaking sales, technical and PMO teams.
