ARCTIQ

Staffing & Talent Acquisition

Finding the Right Fit for Your Organization

When organizations are looking for ways to enhance business productivity or quickly augment staff for a project, finding the right person to join the team can be challenging. You want someone with the skill set, personality, and work ethic that is a cultural fit for your organization. Talent Acquisition and Staff Augmentation is a people business…and therefore one size does not fit all. Arctiq takes the time to find out your needs and requirements up front to ensure we understand all the nuances that will go into the 'right fit'. No cookie cutter forms to fill out…we focus on having a conversation.

Our team has extensive experience both sourcing candidates and hiring them. We understand the pain of working with most staff augmentation firms and have vowed to create a unique experience when dealing with Arctiq. We are committed to being responsive, only presenting qualified candidates, and following up to ensure your complete satisfaction.

Arctiq has experience creating customized recruitment plans:

Placements
Temp, Temp-to-Hire, and Direct Hire

Complete Background Checks
Ensure all employees are thoroughly screened before they start their assignments

Technical Screening
Our in-house team of engineers will screen all candidates for their technical acumen
